

# PROSPECTUS: ATOMIC BASELOAD HUB

## Strategic Digital Assets for SMR Infrastructure & AI Compute

Q2 2026 Institutional Offering

### 1. EXECUTIVE SUMMARY

The convergence of Artificial Intelligence and carbon-free energy has created a historic surge in demand for power-dense infrastructure. As hyperscale data center developers pivot toward **Small Modular Reactors (SMRs)** and **Atomic Baseload** power to meet "Net Zero" mandates, digital identity in this sector has become high-value strategic real estate.

The **Atomic Baseload Hub** portfolio represents a curated collection of premium domains targeting the most critical sectors of the 2026 energy transition:

- **Grid Infrastructure:** Atomic Power Grid, Atomic Thermal.
- **AI Integration:** Reactor Compute, Nuclear Compute Campus.
- **Regulatory & Finance:** Atomic PPA, Atomic Standards, Atomic Sovereignty.

### 2. PORTFOLIO VALUATION & ASSET LIST

Each asset has been valued based on 2026 market comparables, keyword density, and the rising valuation of carbon-free energy infrastructure.

Domain Name	Market Category	Individual Valuation
<b>atomicbaseload.com</b>	Core Grid Infrastructure	<b>\$185,000</b>
<b>reactorcompute.com</b>	AI Data Center Power	<b>\$75,000</b>
<b>atomicthermal.com</b>	SMR Process Heat	<b>\$45,000</b>
<b>nuclearcomputecampus.com</b>	Site Selection & Development	<b>\$35,000</b>

<b>atomicpowergrid.com</b>	Utility Distribution	<b>\$28,000</b>
<b>atomicsovereignty.com</b>	National Security & Policy	<b>\$25,000</b>
<b>atomicppa.com</b>	Energy Finance (PPA)	<b>\$20,000</b>
<b>atomiccampus.com</b>	Mixed-Use Nuclear Sites	<b>\$18,000</b>
<b>atomicstandards.com</b>	Compliance & Regulation	<b>\$15,000</b>
<b>atomicverify.com</b>	Carbon Credit Verification	<b>\$12,000</b>
<b>atomicdatametrics.com</b>	Performance Monitoring	<b>\$10,000</b>
<b>atomiccfe.com</b>	Carbon-Free Energy (CFE)	<b>\$8,500</b>
<b>atomicnetzero.com</b>	Corporate Sustainability	<b>\$7,500</b>
<b>atomiccarbonfree.com</b>	ESG Marketing	<b>\$7,500</b>

### **3. ACQUISITION TERMS**

#### **Individual Purchase**

Standard escrow-protected transfers are available for individual assets. Prices are firm but open to short-term structured payment plans for qualified corporate buyers.

#### **Bulk Portfolio Acquisition**

The entire **Atomic Baseload Hub** portfolio (14 assets) is available for a single institutional acquisition.

- **Bulk Acquisition Price: \$425,000**
- **Strategic Advantage:** Immediate digital authority across the SMR and Nuclear-AI supply chains.

## 4. MARKET JUSTIFICATION

- **SMR Scale-Up:** Over 15 GWe of SMR capacity is currently under development in North America as of 2026.
- **Energy-to-Inference:** Hyperscalers are now prioritizing sites with "behind-the-meter" atomic power to bypass grid congestion.
- **Search Authority:** "Atomic Baseload" and "Reactor Compute" have seen a 400% increase in search volume among B2B energy consultants in the last 24 months.

## 5. CONTACT & INQUIRY

All acquisition inquiries, including Letters of Intent (LOI) or Escrow requests, should be directed to:

**Portfolio Manager Email:** ceall06@proton.me
